Hard Skills

Programming C/C++, Python, Java, C#

I started programming at the age of 14 with Arduino, ESP and Raspberry Pi. Since then I've developped interests in the world of internet of things and automating which let me build apps and software dedicated to it.

3D Modeling

I use the 3D software Blender to exploit my creativity in modeling objects and recreating realistic scenes in the 3D domain

Video editing

I am capable of editing and creating montages of videos, adding modifications such as color correction, sound redesign and special effects
